## PLATFORMS

## PROFILE

An independent and self-motivated **Software Engineer at FluidIt** and Full-Stack Web Developer with 5+ years of hands-on experience building scalable, performant, and customizable web solutions. I craft everything from pixel-perfect frontends to robust server-side architectures — always tailored to the client's exact specifications using high-end web technologies. Actively freelancing on **Fiverr** and **Upwork** since 2020, with a consistent track record of delivering excellence.

## CORE COMPETENCIES

- Time Management
- Team Collaboration
- Leadership
- Communication
- Self-Motivated
- Problem Solving

## WORK EXPERIENCE

- 2024 - Present**  
**Software Engineer**  
FluidIt · Full-Time  
Building and maintaining production-grade web applications. Contributing to architecture decisions, code reviews, and delivering robust full-stack features using modern JavaScript ecosystems.
- 2020 - Present**  
**Freelance Full-Stack Developer**  
Fiverr & Upwork  
Delivered 50+ custom web projects across diverse industries — e-commerce, portfolios, dashboards, and APIs. Maintained a 5-star rating through consistent quality and communication.
- July 2021**  
**Front-End & Back-End Intern**  
AiCore Limited · aicoret.com  
Developed responsive UI components and RESTful backend services. Gained hands-on experience integrating databases with live web applications.

 Codeforces

 Fiverr

 Upwork

March 2020

### Front-End Instructor

AbrayTech Programming Academy · abraytech.com

Taught HTML, CSS, and JavaScript fundamentals to beginner cohorts. Designed curriculum exercises and mentored students through their first live projects.

January 2020

### Web Programming Certification

SoloLearn · GeeksForGeeks · Udemy · W3Schools

Earned verified certificates in web programming covering JavaScript, Python, HTML/CSS, and responsive design best practices.
